

## BOOKS RECOMMENDED

**Polish Sociological Review Recommends:**

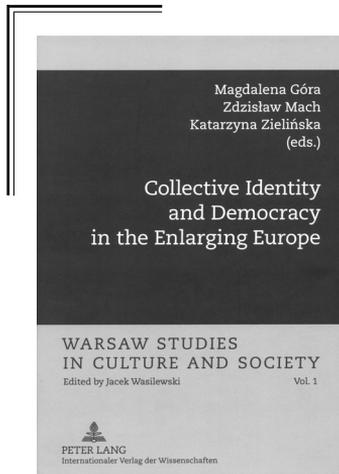

### **Warsaw Studies in Culture and Society**

Book series edited by Jacek Wasilewski

The main aim of this book series is to cross borderlines of traditionally defined fields of studies: cultural anthropology, media and communication studies, sociology, political science, social geography and regional studies, history, social psychology, and other. Contributions adopting comparative perspective and focusing on Central and Eastern Europe region are preferred; however other approaches and areas are also welcomed.

Among a wide variety of topics the series will address issues of a domination of popular culture over classic forms of cultural works, revival and change of regional and national identity, virtual social networks and their impact on “real” group formation and performance, transformation of collective memories and reinterpretation of the past, culturally patterned political attitudes, cultural and social consequences of migrations and globalization of labor markets, grappling with permanent and rapid social changes, depersonalization of social relations in an electronic era, universality of media-affected ways of lives, perpetuation and evolution of political culture, social structure transformations, interrelations of ethnic and cultural minorities with dominant groups, and many others.

In short, the series “Warsaw Studies in Culture and Society” are open for a variety of high-standard academic publications reevaluating old and tackling new problems troubling contemporary societies. Authors are welcome to submit manuscripts of monographs, collected volumes, post-conference volumes as well as dissertations.

From the Editors:

The enlarged and enlarging European Union is a novel political project in motion. The supranational institutions created for six states over 50 years ago are influencing the everyday lives of more than 500 million citizens in 27 countries. In addition to being national citizens, such as French, Polish or Hungarian, they are now also Europeans. This generates the following questions: How do ongoing process affect who the Europeans are? What is the content of their reconstructed identity? What are the consequences of changes in collective identity formation for political processes

in Europe? This book is the result of five years of research on the link between democracy and the functioning of the European Union. It brings together contributions covering recent research dealing with the changing nature of collective identity formation process in contemporary Europe.

*Content:* Democracy; European Union; European Integration; European Identity; Elite and Popular Perception of European Project; EU Enlargement; Central and Eastern Europe; Turkey; Europeanisation.

From the Editor:

This book discusses the specific nature of the various mutual dependencies between Poland and the European Union which have emerged in wake of the opening of the Polish economy to foreign markets. The authors want to know what can be done to help Poland become an economic, infrastructural, cultural and scientific leader. They simultaneously analyze country's ramified relations and connections on four dimensions: economy and management, politics, society and culture.

Many problems facing Poland are discussed. The main challenge, and the one which the Authors discuss with particular attention, is how to modernize the country in every area of its functioning.

The purpose of this publication is to inform readers about the existing mutual dependencies in the world today and to use this information to deal with the challenges facing the Polish economy.

*Content:* Introduction; Economy and Management; Culture and Political Culture; The Politics and Law; Society.
